About AspenPointe:

AspenPointe provides exceptional behavioral health care to our community, one patient at a time. Our continuum of care includes mental health and substance abuse services as well as career and education enhancement programs for individuals and families.

As one of the largest nonprofits in Colorado Springs, AspenPointe traces its roots back 140 years, when we were called the Springs Relief Society. That organization, which delivered coal, lumber and clothing to the needy, was the genesis of what today is one of the largest Medicaid providers in Colorado Springs.

We collaborate with clergy, educators, employers, other health and human service organizations and the legal/criminal justice system in the Pikes Peak region to leverage our collective resources to better our community and the lives of its residents.
